Figure 7.1. Integrated Concept Map: Neuroplasticity, Learning, Memory, and Reconsolidation

Chapter topics and a reading framework

- 7.1 Forms of neuroplasticity
- 7.2 Long-term potentiation
- 7.3 Long-term depression
- 7.4 Memory systems
- 7.5 Encoding and consolidation
- 7.6 Retrieval and updating
- 7.7 Reconsolidation
- 7.8 Extinction learning
- 7.9 Habit and procedural learning
- 7.10 Experience-dependent recovery

Read across levels

Neural • endocrine • immune • cognitive • developmental • social

For each topic: define the construct, examine the method, interpret uncertainty, and consider the decision or application.

Boxes index the chapter's existing section headings. Position is for navigation, not anatomical location or causal order. No connecting arrows are used because the outline alone cannot establish biological pathways.

Source: Chapter 7, section outline and existing discussion of evidence, interpretation, application, and review. Original editorial schematic; no empirical data are plotted. Subject-author review remains required.
