Figure 13.1. Integrated Concept Map: Complex Trauma, Developmental Trauma, and Childhood Adversity

Chapter topics and a reading framework

13.1 Definition and boundaries of complex trauma

13.2 Chronic interpersonal threat

13.3 Developmental timing

13.4 Attachment and co-regulation

13.5 Self-organisation difficulties

13.6 Cognition and executive function

13.7 Somatic and pain pathways

13.8 Social neurobiology

13.9 Institutional and structural adversity

13.10 Developmentally responsive care

Read across levels

Neural • endocrine • immune • cognitive • developmental • social

For each topic: define the construct, examine the method, interpret uncertainty, and consider the decision or application.

Boxes index the chapter's existing section headings. Position is for navigation, not anatomical location or causal order. No connecting arrows are used because the outline alone cannot establish biological pathways.

Source: Chapter 13, section outline and existing discussion of evidence, interpretation, application, and review. Original editorial schematic; no empirical data are plotted. Subject-author review remains required.
